J. A. Ives
ARCO Alaska, Inc.
P.O. Box 100360
Anchorage, AK 99510

Dear Mr. Ives:

We have reviewed your June 13, 1985, response to EPA's Section 114 Request of Information associated with the Lummus heater located at the Seawater Treatment Plant. Based on the information provided, we agree that the physical changes to the Lummus heater should not change the inherent capability of the heater to meet the NO_x emission limitation in PSD permit No. PSD-X820-01. Furthermore since the Alaska Department of Environmental Conservation has recently approved your oxygen monitoring plan, no further testing of this unit is required.

If you have any questions please feel free to contact me at (206) 442-4226.

Sincerely,

Raymond C. Nye
